

Today I'll be reviewing 'What we do to Feel' by emo band Lonely the Brave! Note how the band isn't called Brave the Lonely as that means put up with lonely people without really wanting to. What an obnoxious thing for such a band to sing about, right? It's an obnoxious thing for anyone to say. Imagine this conversation for example 'Hi, what have you been doing today?' The second person would be like 'Well, not much. I've just been putting up with losers with no friends and then writing a song about that...' What. An. Asshole. It would even worse for the person to add 'I wonder what do we have to do to feel like a loser with no friends? I'd love to know because that sounds hilarious!' The irony is, THAT'S a person who will soon end up losing all of his friends. A sad person who ends up writing emo music. I wonder what lyrics he'd write. Maybe 'Well... I'm never working as a therapist again.' Maybe his band Brave the Lonely would technically have to be changed to 'Brave Myself' (i.e. put up with myself as hard as it is) and coincidentally that is REALLY emo.

WWDTF is the band's fourth and latest album. Their first album charted pretty well, but the group have got less and less popular over time. I get the feeling I should have bought their debut album 'The Day's War' instead. Let's listen to it on Youtube, now! I hope I hate it, otherwise I'd have to buy it on Amazon and I've bought enough CDs recently. Ah perfect, if anything I prefer the album I own. Yes, I've only listened to the first song of the debut album, but if I know the band like I think I do, they probably got the listener overexcited by putting the best track first. That's what they've done on WWDTF, anyway. The brand new debut album is selling on Amazon for £9.99 right now, although if you want to buy it privately from someone through the same site, you can get it for £17.99. 'Wow, there must be a catch, right?' Yes, the thing is if you pay more, you DO have to wait longer for the delivery. If £17.99 is too much for you, you can get a copy of the LP in slightly worse condition for £17.97, with an even longer delivery. Choices, choices.

Moving on, I feel a little bit bad for giving the Ghost album 9/10, as on further listens I've realised I was being too harsh. 9.5/10, maybe. Let's listen to THEIR debut album out of curiosity, I bet it's good. No way, I like my album more! Brilliant. I only listened to the first song again, expecting it to be the best, I guess LTB have rubbed off on me. I mentioned how terrible it would be if they were called BTL instead, but if they were called that I wouldn't give them any more attention and they would never have a chance to rub off on me. That annoys me. The Rusty Cooley album I mentioned not long ago is pretty good as well. Still not THAT good, but more than reasonable. Interestingly Mr. Cooley seems to think the best song on the album is the first as he seems to promote it the most, I guess LTB have rubbed off on him, too. Actually I'd say the album is fairly consistent. What kind of band works behind the scenes and influences people in such a way though, and why? LTB are either power trippers, freaks or both.

Should I say sorry to LTB? I have after all accused them of some pretty out there stuff. The anagram of the band is even worse and whilst it doesn't actually exist, I wrote in such a way that made it believable or at least I tried. I tried very hard, as well. God knows what anagrams people could make of my name. An anagram solver on the internet couldn't come up with something that uses ALL the letters of 'Simon Wiedemann' BUT if you do use at least some of the letters in my name, you can spell 'womanised.' Not good is it? Another partial anagram of my name is 'menadiones' and they are nutritional supplements which to be fair, is actually pretty good. Am I

going to underscore LTB too because I haven't listened to them enough? Maybe, yeah. Let's give them 9/10 just in case they do grow on me, I'm sure they will. There's nothing womanising about that, is there? And on that super positive note... Bye!
